Supervised Visitation & Monitored Exchange Services

GENERAL INFORMATION

FLP Family Center provides a safe, child-centered environment where trained professionals facilitate supervised child visitation and monitored exchanges with non-custodial parents. Parents are referred to FLP by Dallas County Family Courts via Court Order. FLP services are specifically for and between two parents, going through separation, divorce, or a custody process that may include multiple issues which could compromise the safety of a parent or child/ren. FLP provides on-site, one-on-one monitoring and observation of parenting time, as well as a safe location for monitored exchanges (without contact between parties), to prevent abusive behavior.

Staff support will include such things as help with modeling appropriate behaviors and communication, and education about playing with, connecting with, and understanding children. As a protective measure for the children, FLP has implemented a set of guidelines for parents to follow to shield the child from involvement in parental disputes, and thus foster resiliency.
