

## 2021 At-A-Glance

**1 in 3** Texans will experience domestic violence during their lifetime—one of the highest rates in the country. The Family Place is the largest provider of family violence services in the state working to help victims become strong survivors with bright futures. In 2021, we served **9,466** clients providing **65,630** days of emergency shelter, **21,036** days of transitional housing, **22,851** hours of counseling to clients, and **10,465** hours of court-ordered group sessions for batterers.

### Residential Services

COVID continued to impact our shelter services in 2021, requiring us to limit shelter capacity and isolate and quarantine families exposed or testing positive. In February, Winter Storm Uri forced us to evacuate our largest shelter due to burst pipes that devastated the facility. We housed women and children in extended-stay hotel rooms for almost six months. Although we served fewer women and children—596 women in 2021 compared to 678 in 2020, and 570 children in 2021 compared to 786 in 2020—our total number of shelter nights increased from 62,118 in 2020 to 65,230 in 2021. We sheltered more men in 2021—66 compared to 56 in 2020—and believe the increase is due to greater awareness of this service.

### Emergency Shelter
